CONSENT OF SURETY TO FINAL PAYMENT

INSTRUCTIONS

1. The execution by the representatives of the surety must be sworn to before a notary public and the surety seal affixed. If executed by any other officer, please attach a certificate of authority.
2. The document must be executed in the name of the surety company by its President or Chief Executive Officer and the surety seal affixed. If executed by any other officer, please attach a certificate of authority.
3. If the document is executed in the name of the surety company by an attorney-in-fact, a power of attorney with the surety seal, dated the date of execution, must accompany the document and must grant the attorney-in-fact the authority to execute consents for **"the release of retained percentages and/or final estimates on engineering and construction contracts"**. The date of execution, the date of notarization and the date of the certificate on the power of attorney must be the same date.

The power of attorney language authorizing execution of consents for the release of retained percentages must be authorized by the surety company. Power of attorney certificates will be rejected where there is no assurance that such language is the surety's original language.

THE USUAL POWER OF ATTORNEY FOR EXECUTION OF BONDS DOES NOT GRANT THE POWER TO EXECUTE THESE CONSENTS.

4. Each power of attorney must be an original copy or be certified to by manual signature unless evidence is furnished that the surety company has authorized the use of facsimile signatures.
5. All appropriate blanks should be filled. No erasures or "white outs" are permitted. Corrections may be made by lining through the incorrect entry, entering the correct information, and having the change initialed by the person executing the form.
6. Failure to comply with the above requirements will result in return of the document and delay in payment of the final estimate.
