Technician Aid	\$22.00	Utility Technician	\$29.91
Telecommunications Specialist	\$87.00	Utility Senior Project Engineer	\$60.63

The above Job Classifications/Titles are to be used for categorizing personnel for A&E contracts providing CE&I Services. With the exception of where unusual project requirements exist, every effort should be made to list all personnel using these Job Classifications/Titles.

These Job Classifications/Titles should not be interpreted as either a position description, or based on the position or title the personnel holds within the Firm, but rather as a means of matching the personnel’s credentials with the Services to be performed in the Contract.

It is recognized that exceptions may need to be made in the case of unusual staff requirements that do not fit within the established Job Classifications/Titles. Any Services for which a Job Classification/Title is not identified herein, and therefore a rate cap is not established, GMX will negotiate a Job Classification/Title and rate cap as needed.

GMX at their sole discretion may elect, where applicable, to substitute years of relevant work experience with required education, or vice versa. GMX may also make reasonable exceptions that would provide GMX with qualified and experienced personnel.

These rates are the upper-limiting amount GMX will compensate for the listed classifications. In the event a Consultant's staff hourly rate falls below the Established Rate Cap for the classification, then the staff hourly rate shall be utilized. In the event the staff hourly rate exceeds the Established Rate Cap, then the Established Rate Cap shall take precedence.

The rates shown on the Established Rate Caps are unloaded rates.
